

Aquifer Exemptions in CA – Projection of Actions and Upcoming Submittals

To date, EPA has approved 19 compliance AE requests submitted by the State (see summary on reverse). Below is a projection of upcoming submittals and expected EPA actions.

September 2019 (?)

South Belridge – Western Expansion Area (Inland District, Kern County)

Upcoming submittals (public notice/hearing complete):

Lynch Canyon – Lanigan Sand (Coastal District, Monterey County)

Sespe (Coastal District, Ventura County)

Jacalitos and Coalinga (Inland District, Fresno County)

Cat Canyon (Coastal District, Santa Barbara County)

Upcoming public notice (received preliminary concurrence from the State Board; hearings not completed):

Holser (EPA may attend the public hearing) (Coastal District, Ventura County)

Oxnard (EPA may attend the public hearing) (Coastal District, Ventura County)

Other expected compliance submittals:

The State is processing 3 additional AE proposals for fields where there is ongoing injection into non-exempt aquifers; timing of submittals for the following fields/formations is highly uncertain, however, the State is projecting preliminary concurrence for these AE proposals in CY2019.

Lompoc (Coastal District, Santa Barbara County), Midway-Sunset – Tulare (Inland District, Kern County), and Kern River (Inland District, Kern County)
